

■ AVAILABLE FOR WORK

– PRODUCT DESIGNER / UI·UX DESIGNER

JADYN CALKINS

jadyncalkins0@gmail.com | linkedin.com/in/jadyncalkins | jadyn.digital

SKILLS

Competencies: Design Systems, High-Fidelity Prototyping, Information Architecture, Interaction Design, Motion Design, Product Discovery, Product Thinking, Responsive/Adaptive Design, User-Centric Design, Visual Design, Wireframing

Tools: Figma, Framer, Adobe Creative Suite, Claude, Rive, FigJam, Linear, Webflow, GitHub, Vercel

EXPERIENCE

Freelance | Product Designer

Jan 2025 - Present

- Validated complex interaction models and product logic by building high-fidelity, interactive prototypes using Figma and Framer.
- Established scalable visual languages by designing modular component libraries and responsive UI layouts for web and mobile platforms.
- Streamlined navigation and identified strategic feature opportunities by conducting competitive analyses, heuristic evaluations, and mapping user flows.

TiriVelo | UX Operations & Systems

Mar 2026 - Present

- Enhanced overall platform scalability and user experience by applying systems thinking to establish a cohesive, modular UI component library.
- Simplified the consumption of complex data sets for end-users by architecting intuitive data visualization dashboards and tailored user interfaces.
- Accomplished a seamless engineering handoff for 5 core Provider flows by producing fully linked, interactive prototypes that clearly translated complex system logic.

allwhere | Asset Management Lead

Jun 2025 - Present

- Accelerated workflow efficiency for internal teams and customers by designing and building custom Claude-based user interfaces.
- Ensured the successful delivery of critical operational targets by leading and guiding a dedicated team of three peers.

- Unlocked new growth opportunities and optimized processes by collaborating with 3PL partners to creatively resolve operational issues.

allwhere | Asset Management Specialist

Dec 2022 - Jun 2025

- Generated actionable insights and tracked key metrics by creating comprehensive reports and conducting deep data analysis.
- Ensured accurate long-term record-keeping by maintaining strict data integrity across complex computerized inventory platforms.
- Improved external logistics reliability by proactively building and managing strong relationships with external partners.

EDUCATION

Business with a minor in Graphic Design

Florida Atlantic University

UX Academy

DesignLab
